### **Band 3**

With some effort, the reader can discern ideas related to two of the bullet points but the first bullet is not covered. There is a definite attempt to address the task but the purpose of the letter is not clear, the key features are not all covered, and there is repetition of the minimal ideas produced. The candidate has not organised these ideas in any logical way and, although linkers are present, they are not always used correctly and fail to help the reader follow the message. The lexical resource is also inadequate for the task. There is severe distortion of meaning in some parts of the answer, due to errors in word choice, form and spelling; some words cannot be deciphered. There is an effort to produce sentences but sometimes this is unsuccessful. Overall, errors predominate and there are no correct sentences, other than those that rely on the input material.
